Mandalay, Myanmar

ABOUT ME

Technology professional with experience across cloud infrastructure, IT operations, education technology, digital content creation, and AI tools. Interested in digital transformation and how organizations can use technology to improve business processes, customer experiences, and operational efficiency. Experienced in supporting AWS infrastructure, researching and solving technical problems, creating digital content, teaching technology concepts, and working independently in remote environments. Strong analytical thinking, communication, problem-solving, and willingness to learn new technologies and business processes.

EDUCATION

2025	Bachelor of Science in Computer Networks
Liverpool John Moores University	
2023	Higher Diploma in Infrastructure and Networks
Auston College	
2026	Diploma in Project Management
MIBA College	

EXPERIENCE

June 2026 - Present	ICT Coach
Ciy Club Myanmar	Teach technology and programming concepts to students using clear and age-appropriate explanations. Communicate technical information in both Burmese and English depending on student needs. Prepare learning materials, explanations, activities, and project instructions. Translate technical concepts into simple Burmese explanations for students.
June 2026 - Present	Freelance Content Writer & Page Creator
The Rethink Corner	Run and manage Rethink Corner, a personal content page focused on sharing knowledge, ideas, educational topics, reflections, and blog-style content. Research topics from online sources before creating content to improve accuracy and relevance. Review content before publishing to identify unclear information, inconsistencies, grammatical issues, and misleading statements.
Feb 2025 - April 2026	Junior Cloud Engineer
B8 ICT Solutions	Supported AWS infrastructure (EC2, S3, IAM, VPC) while ensuring system accuracy and security. Monitored system activities to identify irregular patterns and assisted in troubleshooting issues for stable operations. Applied access control and followed SOPs to maintain compliance, collaborating with team members to complete tasks on time.

EXPERIENCE

March 2026	KBZPAY Student Ambassador
KBZ Bank	Learned KBZPAY operations and assisted with daily banking processes. Supported on-the-job training, customer service, and banking operations while maintaining accurate records. Collaborated with team members to ensure smooth workflow, enhanced communication skills, and gained hands-on exposure to client-facing operations.
March 2024 - May 2024	Junior Network Support
Star Matrix Technology	Assisted in network installation and maintenance, configured routers and switches, and provided troubleshooting support. Worked with team members to ensure accurate setup and timely completion of tasks.
